

Local Subjects.

CHITALDRUG DISTRICT.

Subjects Nos. 241 to 244 were introduced by Mr. Venkataramaiya, Pleader,
and Mr. Cheelangi Huleppa of the Chitaldrug Taluk.

No. 245 by Mr.....

Nos. 246 to 248 by Mr. Sankappa of the Chitaldrug Local Fund Board.

Subject No. 241.
Construction of a
Gokatte at Chital-
drug.

Summary of discussion.—Since December 1897 the district authorities have prohibited the cattle of the Town of Chitaldrug from drinking water in the Timmannaikankere tank without making any endeavour to construct a gokatte for them. The Municipality has realised a sum of Rs. 2,000 as fine by impounding the cattle trespassing. Out of this sum at least a gokatte may be ordered to be constructed for the use of the cattle.

Reply of Government.—To the Deputy Commissioner for early disposal after due consideration of the requirements of the cattle concerned.

Subject No. 242.
Removal of silt, &c.,
from the Honda at
Chitaldrug.

Summary of discussion.—The honda water in the Chitaldrug Town used to be healthy, but it has now become unfit for drinking purposes owing to silt, moss and rank vegetation. As this is the only source of supply of drinking water to the Burjanhatti people, it may be ordered to be cleared of silt &c., so that the water may be rendered fit for drinking purposes.

Reply of Government.—The Municipal Board is investigating the project.

Subject No. 243
Collection of revenue
in two instalments.

Summary of discussion.—In spite of the rule that Land Revenue should be recovered in four instalments, some Amildars have been collecting the revenues of many villages in two instalments only.

Reply of Government.—A representation may be made to the Deputy Commissioner who will enquire into the matter and do the needful.

Subject No. 244.
Encroachment on
mamul cart-tracks.

Summary of discussion.—Mamul cart-tracks should not be allowed to be encroached upon to the inconvenience of the public.

Reply of Government.—Referred to Deputy Commissioner for needful action.

Subject No. 245.
A building for the
Dispensary at Hos-
durga.

Summary of discussion.—The construction of a dispensary building at Hosdurga is highly desirable, as the payment of monthly rent would be a waste of Government money.

Reply of Government.—Hosdurga is growing in importance owing to its proximity to the Marikanave Works, and the Senior Surgeon will be asked to look into its requirements.
